

If I am not a resident of Alabama, but earned income from Alabama sources, am I required to file an Alabama tax return?

Yes. According to Reg. 810-3-15-.21 - Nonresident individuals receiving taxable income from property owned or business transacted (including wages for personal services) within Alabama are taxable on such income from within Alabama. They should file a Nonresident Individual Income Tax Return, Form 40NR, each year.
